

GlobalMeet Webinar

Scalable Streaming for any Online Event

Engage Audiences with Professional-Quality Video in Minutes

Intuitive Design

Create impactful events in minutes with an easy to use set up wizard

Instant Access

One-click event access on any device for presenters and attendees

Audience Engagement

Robust features including HD video, polling, Q&A, testing and certification

GlobalMeet Webinar is an easy-to-use, scalable streaming solution built to host any online web event. Whether your need is for training a small group of new hires or generating leads for your product, GlobalMeet Webinar will help you deliver a more engaging webinar anywhere on any device. A variety of specially designed packaging ensures any size organization has the right features that best fit their event needs.

Easily Create High-Quality Webinars

GlobalMeet Webinar's intuitive interface allows you to easily schedule and create events with the quality and reliability your event deserves. The self-service experience gives you the control to easily deliver your message with a variety of branding and features to increase audience engagement without spending time managing complicated software.

Host Engaging and Impactful Events

GlobalMeet Webinar is a cloud-based tool offering 100% browser-based access for hosts, presenters and viewers from any device. The solution provides high-quality audio streaming, broadcast HD video and interactive features such as polling, Q&A and chat to keep audiences engaged, with the versatility to be delivered live, simulive or on-demand.

Reliable Video Streaming

Ensure your audience is engaged and your message is delivered with a reliable HD video experience.

Customized Branding

Create branded emails, custom registration landing pages and graphics to showcase your brand, not ours.

Interactive Audience Engagement

Keep audiences captivated with features like HD video polling, Q&A, chat and social feeds.

Seamless Integrations

Save time and money with automatic integration with Marketing Automation Systems and other key business software.

Comprehensive Reporting

Measure success and improve future events with 24/7 access and automatic notifications to event analytics.

Unmatched Scalability

Get the versatility to host events from small to large from a single platform.

Deployment Versatility

Broadcast live events or edit and re-purpose recorded material for a simulated live event or on-demand viewing.

Intuitive Event Execution

Our webinars are simple to create and even easier to join from any device.

Flexible Pricing and Packaging

Choose the package that best fits the needs of your organization and event.

End-to-End Event Support

Instant 24/7 technical support from our award-winning event experts.
