GlobalMeet Audio for Skype for Business Make Every Meeting More Productive

GlobalMeet Audio enhances every Microsoft Office 365/Skype for Business experience by providing reliable, crystal-clear voice communication and more convenient connection options. GlobalMeet Audio can also be used outside of Skype for Business for high quality audio conferencing with colleagues all over the world using any device. Both hosts and guests are fully supported 24/7 by live local language representatives.

Make it Easier to Meet

GlobalMeet Audio provides flexibility to connect with internal and external participants using VoIP, dial-in, dial-out and toll-free options. Gain greater geographical coverage with over 160 access numbers that span across 60+ countries.

Maximize Your O365/Skype for Business Investment

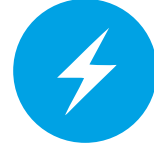

GlobalMeet Audio allows you to fully support global meeting collaboration using Skype for Business. Integration is simple and the audio service is controlled through the Skype interface. A variety of plans are available, including per minute rates and monthly subscriptions.

Crystal-Clear Audio Quality
Maximize productivity with high quality voice communication.

More Connection Options
Improve meeting participation with a mix of dial-in, dial-out, toll-free and VoIP connections in the same meeting.

Enterprise Audio Network
Gain reliability and security using an advanced audio network that delivers more than 60 million meetings a year

Global Coverage
Connect with participants from all over the world with over 160 access numbers across 60+ countries.

Easy-to-Use Audio Conferencing
Conduct high quality audio conferences outside of Skype for Business using any device.

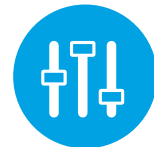

24/7 Live Support
Access local language representatives that support hosts and guests anytime.

Simple Integration
Get started quickly by setting up the service from the Skype interface in a few steps.

Flexible Plans
Choose from a variety of pricing options that offer the flexibility you need, including per minute and enterprise & per user bundles.

Meeting Controls
Enjoy a seamless experience using the Skype meeting controls to mute, hold, manage volume & more.
